

Recent changes to the HCAI DCS – June 2021

As part of the on-going business needs and changes/improvement required for the HCAI DCS, PHE has scoped out some system changes and improvements. These are based on the feedback and experiences accumulated over the years which are integral to the business continuity. These changes/improvements are in the following areas of the DCS.

Line Listings Report

1. A **Recurrence** button has been added to the **My Line Listings Results** viewing window. Allowing users to automate reports they regularly use.

Data Dictionary Report

1. The new data dictionary report now contains grouped fields, allowing users to download fields and associated explanations by group.

Case Transfer option

1. Allows trusts to transfer a case to a different trust if required.
