

## Recent changes to the HCAI DCS – March 2021

As part of the on-going updates to the HCAI DCS, PHE has scoped out some system changes and improvements. These are based on the feedback and experiences accumulated over the years which are integral to the meeting business needs and continuity. These changes/improvements are in the following areas of the DCS.

### Line Listings Report

1. A **Delete** and **Cancel** button has been added to the **My Line Listings Results** viewing window. This allows users to remove unwanted reports from the viewing window, by either cancelling them whilst in progress or deleting them completely.
2. The **Created Date** column has also been moved to the left-hand side of the viewing window.

### Data Dictionary Report

1. A new data dictionary report is available, allowing users to download all fields and associated explanations on the DCS by data collection.
